

6th Edition of Global Congress on
**Plant Science
and Molecular Biology**

Sept 30-Oct 02, 2021 | Paris, France

TENTATIVE PROGRAM

Theme: Accentuate Innovations and Emerging Novel Research in Plant Sciences

| Website: <https://plant-science-biology-conferences.magnusgroup.org/register>

| Email: plantscience@magnusgroupllc.com

| Register: <https://plant-science-biology-conferences.magnusgroup.org/register>

TENTATIVE PROGRAM

Keynote Presentations

Title: Evolution, Humanity, Science and Molecules

Klaus Ammann, University of Bern, Switzerland

Title: What is the Nitrogen Story?

Jagdish Kumar Ladha, University of California-Davis, USA

Title: Impoverishment of the Turanian biota in discrete relict patches of painted deserts across East Georgia

Arnold Gegechkori, Ivane Javakhishvili Tbilisi State University, Georgia

Title: To be announced...

Jeremy Sweet, J T Environmental Consultants Ltd, United Kingdom

Title: To be announced...

Anabel Rial B, Independent Consultant / Member UICN-SSC Freshwater Specialist Group, Venezuela

Title: Biochemistry of some relic and endemic conifers of Balkan Peninsula

Biljana Nikolic, Institute of Forestry, Serbia

TENTATIVE PROGRAM

Oral Presentations

Title: Quality of the herb *Mentha x Piperita* L. var. *Officinalis* Sole f. *Pallescens* Camus modified by drying at high temperatures in a vacuum

Najda Agnieszka, University of Life Sciences In Lublin, Poland

Title: Field crops as a source of biologically active substances for crop production

Pavlovskaya N.E., Orlov State Agricultural University, Russian Federation

Title: A new representative of poly(sugar acids): Acidic polysaccharide poly[3-(3,4-dihydroxyphenyl)glyceric acid], its synthetic analogues and potential therapeutic effect

Vakhtang Barbakadze, Tbilisi State Medical University, Georgia

Title: Molecular assessment of genetic diversity of some Tunisian fig (*Ficus carica* L.) accessions using RAPD, ISSR and SSR Markers

Fateh Aljane, University of Gabès, Tunisia

Title: Worlds unique habitat diversity of Kolkheti Lowland (West Georgia), threats, conservation and wise use

Izolda Matchutadze, Batumi Shota Rustaveli State University, Georgia

Title: Physiology changes induced by priming in *Miscanthus x giganteus*

Hana Auer Malinska, Jan Evangelista Purkyně University, Czech Republic

Title: Chemical volatile profile diversity in Brazilian native plants: Future perspectives

Roberto De Oliveira Portella, Taubate University, Brazil

TENTATIVE PROGRAM

Title: Postharvest insect resistance in Maize

Laura Margarita Lopez Castillo, Tecnologico De Monterrey, Mexico

Title: Legume genetics and genomics to shape a sustainable future

Acga Cheng, University of Malaya, Malaysia

Title: Exploring novel leaf rust resistance genes in *Aegilops speltoides* and *Ae. variabilis* for imparting leaf rust resistance in bread wheat (*Triticum aestivum* L.)

Niranjana Murukan, ICAR-Indian Agricultural Research Institute, India

Title: GHG production and effects on tropical agriculture: The case of Brazil

Pimentel, Carlos, Federal Rural University of Rio De Janeiro, Brazil

Title: Sowing dates, phosphorus resources and plant density effects on black cumin (*Nigella sativa* L.) characteristics

Hamid Madani, Azad University, Iran

Title: Localized repression of two bHLH genes are involved in white margins in flowers of carnation by the absence of synthesis of anthocyanins

Ayumi Deguchi, Chiba University, Japan

Title: Pythium root rot reaction of common bean progenies derived from a molecular marker assisted backcrossing program for anthracnose resistance

Annet Namayanja, National Crops Resources Research Institute (NaCRRI), Uganda

Title: Conservation and production of medicinal and aromatic plants for sustainable livelihood

Chandrawati Jee, Magadh University, India

TENTATIVE PROGRAM

Title: Detection and management of Citrus decline syndrome

Zafar Iqbal, University of Sargodha, Pakistan

Title: Insight into the changes in conserved miRNA and the targets during the events leading to successful generation of scutellum derived calli in *Oryza sativa*

Lata Israni Shukla, Pondicherry University, India

Title: Effect of liquid formulation of azotobacter vinelandii on germination of vigna radiate

Jadhav Karan R, India

Title: Journey to the Tunisian olive tree and its aromas

Amor Mtimet, Tunisian Soil Science Society, Tunisia

Title: Compatible osmolytes in succulent and non-succulent halophytic plants and their utilization for sustainability

Suhas J. Vyas, Bhakta Kavi Narsinh Mehta University, India

Title: Influence of growth media to the virulence of *Beauveria bassiana* (Balsamo) vuillemin against *Tribolium castaneum* (Tenebrionidae: Coleoptera)

Itji Diana Daud, Hasanuddin University, Indonesia

Title: *Inocybe battagramensis* sp. nov. (Agaricales, Inocybaceae)

Muhammad Binyamin Khan, Hazara University, Pakistan

Title: Response of some algal species for adsorption of Manganese, Cobalt and Nickel from untreated textile effluent in Kano, Nigeria

Garba Ado, Nigerian Army University Biu, Nigeria

TENTATIVE PROGRAM

Title: Effects of some insecticide mixtures on toxicity and some biochemical parameters of cotton leafworm, *Spodoptera littoralis* (Boisd.)

Mohamed, F. Abdel Aziz, Agricultural Research Center, Egypt

Title: The impact of the outbreak of tomatoes disease *Tuta absoluta* in Nigeria

Michael Adedotun Oke, Michael Adedotun Oke Foundation, Nigeria

Oral Presentation Slots are Available

Poster Presentations

Title: Alleviation of thermal stress in *Pinus ponderosa* by plant-growth promoting rhizobacteria isolated from mixed-conifer forests

Kelli G. Thorup, California State University, USA

Title: Short-term exposure to Diclofenac cause adverse effects on Green Alga *Chlamydomonas reinhardtii*

Darya Harshkova, University of Gdansk, Poland

Title: Sorghum as a forage alternative in semi-arid regions of northern Mexico

Juan Leonardo Rocha Valdez, Universidad Autonoma Agraria Antonio Narro, Mexico

Title: Six sigma an option in bean production in Northern Mexico

Juan Leonardo Rocha Quinones, Universidad Autonoma Agraria Antonio Narro, Mexico

TENTATIVE PROGRAM

Title: The allopathic effect of aqueous extract of tuberous root of (*Ranunculus ficaria*) on wheat seedlings growth

Sima Sohrabi, Gorgan University of Agricultural Sciences and Natural Resources, Iran

Title: Study Resistance and reaction type number of genotype (*Vicia faba L.*) *Uromyces viciae - fabae* and definition of races and Status and strategies for improvement in Syria for season 2018 – 2019

Shoula Aboud Kharouf, Al-Furat University, Syria

Title: Biochemical and molecular characterization of ion transporter channels in salt sensitive versus tolerant indica rice cultivars in aspect of salt tolerance

Amber Gupta, Institute of Life Sciences, India

Title: Alfalfa production (*Medicago sativa L.*) fertilizing the soil with organic sources based on vermicompost

Rafael Avila Cisneros, Antonio Narro Autonomous Agrarian University, Mexico

Title: Biological control of fungal leaf spots of *Rosa indica l.* by *Datura stramonium l.* extract

Rubab Rafique, Pakistan

Title: Evaluation of Durum wheat varieties for yield and yield related traits in highland areas of southern Ethiopia

Solomon Shibeshi, Worabe Agricultural Research Center, Ethiopia

Poster Presentation Slots Available
